

GAS PROJECT

JENSEN ADDITION PHASE 2

The City of Safford will be upgrading and relocating the Natural Gas lines in your area.

To provide safe and reliable natural gas we are upgrading and relocating the underground gas lines in your area. To relocate the line, we may need to complete a small excavation on your property.

If you would like to meet with a Gas Technician regarding the excavation, please contact us at your earliest convenience to schedule a time and date.

During this project:

Equipment will possibly be operating in or around your property.

Please keep children and pets away from construction area.

Your gas service may be interrupted for short periods of time.
